

ANGLE PLUG GAGES

Die Quip's angle plug gages are a quick, easy and inexpensive way to check approach angles. The gage will lock into place if the angle is correct or move from side to side on incorrectly made ones. Each gage is made from 1/2" (12mm) tool steel that is heat treated to 55Rc. The angle is turned on a CNC lathe then ground to a +/- 5 minutes of a degree tolerance.

ANGLE PLUG GAGE SETS

Each set includes six different angle gages and vinyl carrying case with tie string.

- Wire Industry Angle Plug Gage Set
Order number 60401400
Includes following gages: 8, 10, 12, 14, 16 & 18
