

HAND DIE GRINDERS

Die Quip's line of electric and air powered hand held die grinders make it easier, faster and more ergonomic to polish dies using wood or felt bobs than by hand. Our extensive offering has a tool for every polishing application from powerful electric and flexible shaft units to standard or extended nose pneumatic grinders. The electric grinders are best suited for heavy duty use on tube and bar dies while the air powered grinders are an economical alternative.

Electric Grinder Specifications

<u>Part No.</u>	<u>Description</u>	<u>HP</u>	<u>RPM</u>	<u>Tool Capacity</u>
