

DIE SAVER™

DS/2

Extend the life of your dies and inventory with the DIE SAVER.
It's a GRINDER and a POLISHER in ONE MACHINE!

ELIMINATE COMMON PROBLEMS:

- Inaccurate Die Angles
- Wear Rings
- Tapered Bearings
- Scratch Marks
- Out-of-Roundness
- Poor Finishes

Save time, money and your inventory with a DIE SAVER!

Replace hand finishing with the DIE SAVER grinder that is also a polisher. This machine is perfect for small die shops because it economically grinds the die accurately and quickly removes material in grinding mode, and then switch it to a polishing cycle that is spring loaded to produce excellent results.

GRINDER MODE

- Accurately reshape your dies
- Repeatable results
- Cut dies to a meeting point with fast speeds and accuracy
- High RPM
- Manual feed

POLISHER MODE

- Eliminate hand sizing
- Adjustable RPM provides better finishes
- Semiautomatic cycle
