Weight	35lbs (16kg)
Throat	6 5/8" (170mm)
Table	4 1/2" (110mm) Square
Air pressure	40-50 PSI (2.78-3.47 bar)
Die Capacity	1-4" (25-100mm)
Pressure	.75 Ton (700kg)

Stamping Heads & Numbers

Our quality engineered marking tools are made with deep chisel-like characters to produce a clear, distinctive impression on the die. Top quality alloy tool steels and unique hardening process assure you superior stamp life. Stamps available in 1/16 (1.6mm), 3/32 (2.4mm), 5/32 (4mm), 3/16 (4.8mm) and 1/4" (6.4mm) heights.

Manual Stamping Head

Manual stamp heads are an inexpensive method to set the number to be marked on the die. The quick locking lever makes changing numbers fast and easy. The stamp height and number of characters needs to be specified when ordering.

Rotary Stamping Head

The rotary stamping head is the quickest method to change characters when marking dies. Just dial the number that you want and start stamping. The stamp height and number of characters needs to be specified when ordering.
