

TWISTER SPEED LATHE

The Twister is a full-featured speed lathe designed for polishing draw dies, extrusion tooling and mandrels with hand-held tools. Choose from one of our standard collets, chucks or we can custom make any collet size to meet your needs.

Machine Features

- Lever action ball bearing 5C collet closer permits instant chucking and releasing of parts. Collets available from 1/32-3" (1-150mm)
- True variable speed allows you to select any spindle speed between 100 and 2500 RPM, forward or reverse.
- The foot switch comes standard with each Twister, while the front panel switch also controls the speed and direction of rotation. These two switches can work independently of each other or together.

Optional Accessories

1" Step Collet	91004900
1 1/2" Step Collet	20000400
1 1/4" Step Collet	20001000
2" Step Collet	20000500
3" Step Collet	91001100
1 1/2 X 2" Step Collet	93001400
28mm Step Collet	91005000
43mm Step Collet	91005100
53mm Step Collet	91005200
3" Chuck on 5C Adapter	91000400
